

FLU FIGHTERS

VERSUS

CHILLY, ACHY AND SNOTTY

GROWN UPS INFO

The **FREE** nasal spray is the best defence children have against flu.

Here are five great reasons why your child should join the Flu Fighters – and help defeat Chilly, Achy and Snotty and their fiendish friends...

- 1** The vaccine will help protect your child against flu and serious complications like bronchitis and pneumonia.
- 2** Vaccinating your child will help protect more vulnerable family members and your friends, too.
- 3** There's no nasty needles! The nasal spray is a quick squirt up the nose, nothing more – it's easy and painless.
- 4** It's better than having flu! The nasal spray helps protect against flu, has been given to millions of children worldwide and has an excellent safety record.
- 5** It can also save you money, because if your child gets flu, you might end up having to take time off work or arrange alternative childcare.

FLU
FIGHTERS
VERSUS
CHILLY, ACHY
AND
SNOTTY

Words and story by Paul Brown and Helen Cook

They came from the Planet Bogey, a cold and lonely place
Full of bugs and grubs and germs and worms, far away in Space.
They landed on Earth in their rocket ship Snotnik
And began their search for kids they could make sick.

The aliens were named Chilly, Achy and Snotty
And their mission was to make humans feel grotty.
“Ah ha!” they cried, “we’ve come to spread disease
“And make Wolverhampton's children cough, splutter and sneeze!”

“We came last winter and we had great fun
“Taking over Amy and Raj and little Daniel's mum.
“They missed their free vaccine; they hadn't been protected
“And by the time we left, they were horribly infected!”

And they shook and shivered and they felt really bad
And they shivered and shook and they were very sad.
“Oh no,” they wailed, “it must be the flu!
“No wonder we are all feeling so terribly blue!”

In the control room our fearless flu nurse
Is watching for invaders from across the universe.
Suddenly, alarms sound and warning lights flash red
“Aliens are coming, there's danger ahead!”

Outside the school the aliens spy on their prey
They laugh out loud: “Infecting this lot will be child's play!”
The nurse is alert and spots the three foes
And grabbing her equipment off she goes.

The nurse lands at the school where the kids are playing ball
And shouts out: “Quick, come here, I must save you all!
“These hideous aliens want to give you the flu
“But a quick squirt up your nose will stop them, it's true!”

The spray given, shields form around our heroes
through which nothing can sneak.
Amy, Raj and Daniel have become Flu Fighters
with powers at their peak!

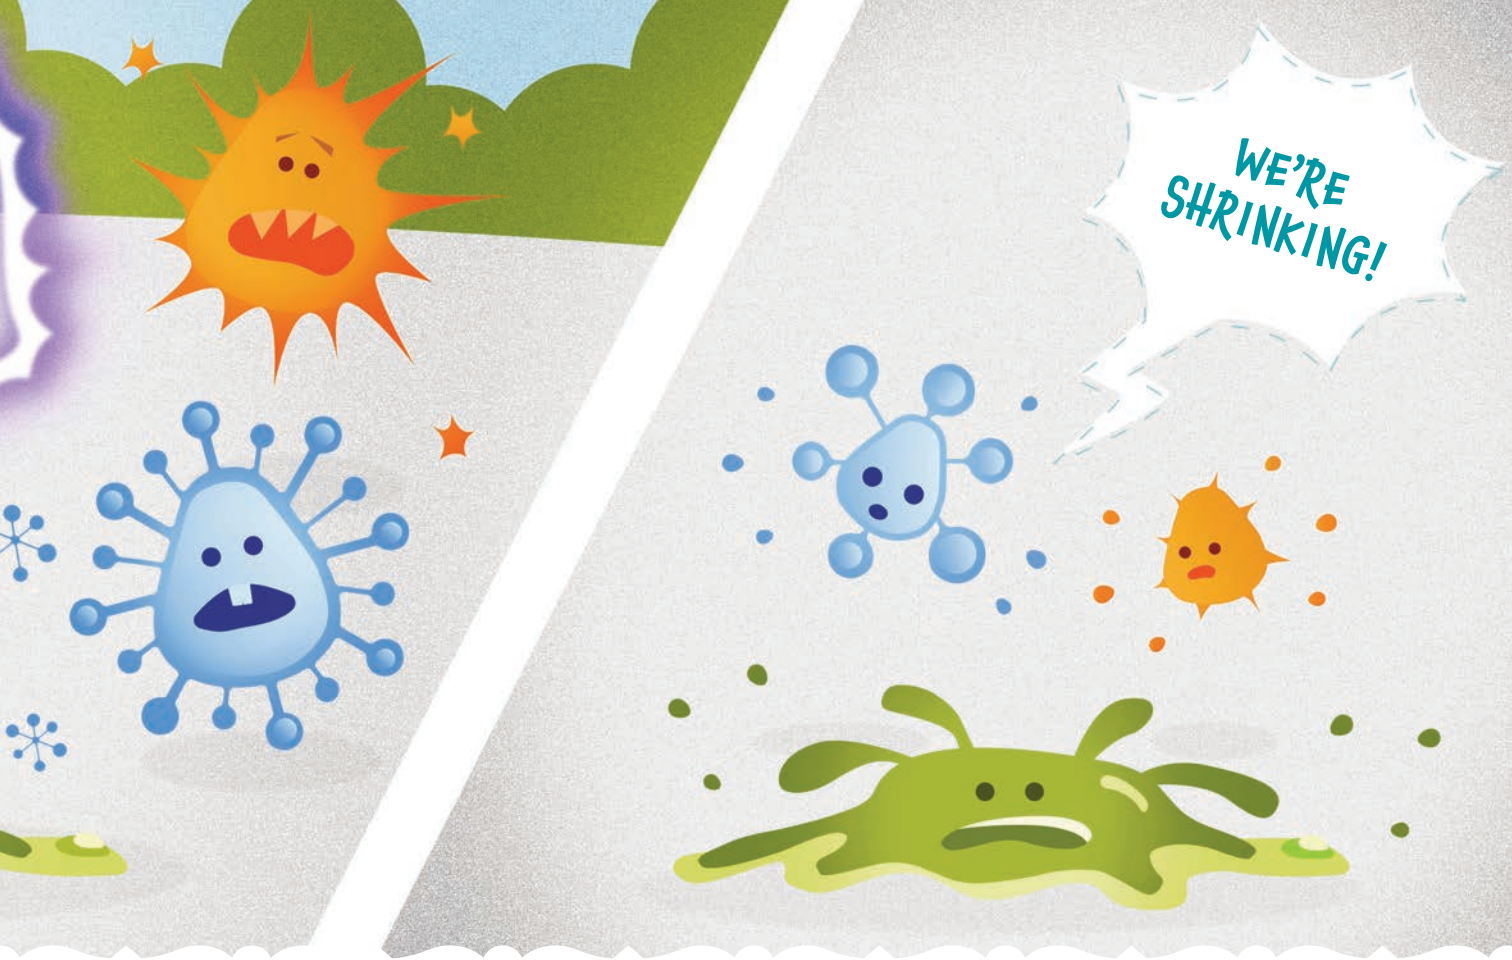

Now Chilly, Achy and Snotty make their move, the visitors attack
But the kids are protected and so they fight back.
“Curses!” cry the aliens, “She’s saved those little mites
“But we still have the rest of the school in our sights...!”

“Not so fast,” roar our heroes to the enemy at the gates
And they team up with the nurse to save their school mates.
Giving every child a squirt of power up their nose
Protecting them from flu, from their heads to their toes.

The children fight back, becoming crusaders
And turn their spray on the horrible invaders.
The aliens are stunned, the spray does the trick
Shrivelling them up quickity quick!

Faced with an army hundreds strong
The monsters soon realise they have done wrong.
Try as they might, they can't get through
"They've defeated us, what can we do?"

The battle is over, the job is done
The Flu Fighters are safe and the aliens are gone.
One task remains before our heroes can win...
To wipe up the baddies and put them in the bin!

The spray has saved them
and kept the germs at bay.
A quick squirt up the nose
has saved the day!

The aliens have lost, their mission an epic fail
But wait, what's this? A twist in the tale!
Coming from the bin, what can we hear?
A gargled threat:

GROWN UPS INFO

The **FREE** flu nasal spray is offered to all children in Reception, Year 1, Year 2, Year 3, Year 4, Year 5 and Year 6.

It is also available to all children aged two and three, and children with some long-term health conditions, through their GP.

Most children will receive the free spray at their school. If your child misses this, they can receive their free spray at special catch-up clinics.

For more information, including details of catch-up clinics, please visit **www.wolverhampton.gov.uk/flufighters**

For more information about the flu vaccine, please visit **www.nhs.uk/child-flu**

Getting flu is horrible;
it can cause:

- a fever
- a blocked nose
- sore throat
- aches
- and tiredness.

In the most serious cases, it can
cause bronchitis and pneumonia.

The **FREE** nasal spray is the best
defence children have against flu.
It's free, safe and painless too!

Get the vaccine
and become a
Flu Fighter like us!
